Zink, P. L., *35*

SUBJECT INDEX

A

Abdominal pain, allergic, in children, *50*
Acetylcholine, effect of adrenotrophic hormone on, *16*
  effect of vitamins on, *43*
  synthesis of, *16*
Adjuvants to sensitization, *56*
Agranulocytosis following thiouracil, *29*
Albumin, egg, denaturation of, *67*
Alfalfa dermatitis, *22*
Algerobia pollen in Hawaii, *3*
Allergens, cutaneous penetration by, *39*
Allergic abdominal pain in children, *50*
  fatigue and lymphadenopathy, *50*
  manifestations, frequency of, in orthodontic patients, *25*
    in cattle, *45*
    in genitourinary tract, *12*
    in newborn period, *52*
  reactions, mechanism of, *41*
Allergy, growth and the development of, *51*
  in cattle, *45*
  psychosomatic aspects of, *40*
  spontaneous, in a dog, *50*
  thyroid relationship to, *64*
Aminophyllin, rectal instillation in asthma of, *57*
Anamnestic response, explanation of, *42*
Anaphylactic reactions, role of histamine in, *41*
  shock, benzhydryl alkamine ethers in, *54*
    inhibitory effect of glycogen in, *66*
    potentiating effect on herpes of, *79*
    pyridine derivatives in, *79*
Anaphylaxis, cellular damage in, *41*
Antibodies, autonomic nervous system and production of, *77*
  in lymphocytes, demonstration of, *31*
  in the release from lymphocytes, *42*
  to ragweed in animal sensitization, *52*
Antigen-antibody reaction, quantitative studies in, *56*
Anti-histamine activity of diethylaminoethyl-dihydroanthracine-carboxylate and other substances, *53*
Antitrypsin, role in desensitization of, *42*
Ascaris as a cause of asthma, *33*
Ascorbic acid, effect on common cold of, *54*
Asthma, aminophyllin by rectal instillation in treatment of, *57*
  ascaris infestation as cause of, *33*
  carcinomatosis, diffuse, simulating, *57*
  coincident with tuberculosis, pathologic studies in, *57*
  complications of, *46*
  electrocardiographic studies in children with, *33*
  impaired nutrition in, *13*
  infectious, sulfathiazole inhalation in treatment of, *18*
  insecticides as cause of, *4*
  intractable, treatment of, with penicillin, *45, 57*
  penicillin inhalation in treatment of, *69*
Asthma—Cont'd
  plasma transfusions as cause of, *65*
  postoperative pulmonary complications in, *1*
  preoperative and postoperative care in, *1*
  roentgen studies of heart in children with, *33*
  serum potassium in, *46*
  "shock" as complication of, *17*
  spontaneous pneumothorax in, *2*
  syndrome due to bronchial obstruction with anoxemia, *58*
  value of inhalation therapy in, *18*
Atopic eczema, pathogenesis of, *71*
Autohemagglutinins, *32*
Autonomic nerves, relation of allergy to, *77*

B

Barbiturate dermatitis, anemia associated with, *36*
Bee sting as cause of systemic reaction, *65*
Benzhydryl alkamine ethers, antianaphylactic effect in guinea pigs of, *54*
Bronchial asthma (*See* Asthma)
Bronchiectasis, clinical problems in, *2*
  diagnosis and treatment of, *3*
  penicillin therapy in, *46*
Bur clover dermatitis, *22*

C

Castor bean, carbohydrate-free protein in, *54*
  oil, reaction to oral administration of, *73*
Cathepsin, role in inflammation of, *55*
Cold agglutinins in respiratory disease, *32, 44*
Colds, effect of ascorbic acid on, *54*
Collodion agglutination technique, studies on, *43*
Complement, human, *44*
Contact dermatitis and central nervous system lesions, *63*
Contact dermatitis (*See* Dermatitis)
Contrast media, deaths following use of, *26*
Cotton industry, respiratory illness in, *46*

D

Dermatitis caused by alfalfa, *22*
  ammoniated mercury, *23*
  barbiturates, *36*
  blue navy uniforms, *21*
  bur clover, *22*
  ephedrine sulfate, *37, 48*
  explosives, *6*
  insecticides, *4*
  lemon grass oil, *7*
  microlene, *37*
  morphine, *35*
  penicillin, *21, 24, 60, 72*
  potatoes, *73*
  rubber, *37*
  shoes, in soldiers, *24*
  stocking dye, *22*
  sulfonamides, local application of, *37, 61*
  tetryl, *72*

Dermatitis caused by—Cont'd
Tyroglyphidae mites, *23*
wearing apparel, *73*
eczematous, sodium thiosulfate in treatment of, *22*
industrial, and dermatophytosis, *4*
in infants from mother's hair lacquer, *38*
in the fish industry, *48*
occupational, in war industries, *6*
poison ivy smoke as cause of, *20*
sulfonamide, oral desensitization in, *36*
venenata, antigenicity of vesicle contents in, *59*
Dermatophytosis and industrial dermatitis, *4*
Desensitization, mechanism of, *42*
oral, in sulfonamide dermatitis, *36*
Diaper rash caused by perm-aseptic, *61*
Diethylaminoethyldihydroanthracine-carboxylate, anti-histamine activity of, *53*
Diodrast, fatalities from use of, *26*
Diphtheria and tetanus, combined vaccination against, *80*
Dog, spontaneous allergy in, *50*
Drug fever caused by sulfathiazole, *65*

E

Eczema in children, soybean diet in, *7*
infantile, complications of morbidity and mortality in, *60*
gastric secretions in, *59*
Eczematous sensitization with 2:4 dinitrochlorobenzene, specificity of sensitizing compounds in, *71*
Egg albumin, denaturation without degradation of, *67*
allergy, significance of, in typhus and yellow fever immunization, *63*
Endocrine imbalance as cause of vasomotor rhinitis, *49*
Eosinophilia associated with Loeffler's syndrome, *33*
common causes of, *14*
following parenteral liver therapy, *68*
incidence of, *14*
of blood in tuberculous peritonitis, *78*
tropical, cold agglutination in, *80*
Ephedrine, dermatitis from, *37*, *48*
Epinephrine, effect on serum potassium of, *46*
Equine antisera, failure to sensitize passively with, *29*
Ethylene disulphonate in treatment of children's allergies, *64*
Evaporated milk, supplemented, as food for infants, *32*
Explosives as cause of dermatitis, *6*
Eye, immunologic studies in, *38*

F

Fever, chemical basis of, *44*

G

Gastric secretion in infantile eczema, *59*
Genitourinary tract, allergic manifestations in, *12*
Glomerulonephritis following revaccination for smallpox, *11*
Granuloma inguinale, antigen for skin test in, *48*

H

Hair lacquer dermatitis in infants, *38*
Hapamine as cause of neuritis, *50*
sensitivity to, *50*
Haptenic antigens, Schultz-Dale tests with, *13*
Hawaii, pollination in, *3*
Hay fever in Hawaii, *3*
military aspects of, *70*
Headache, allergic, *10*
Heart in asthma, *18*
in asthmatic children, *33*
Heat urticaria and pruritus, *5*
Helminthiasis, cutaneous type, associated with Loeffler's syndrome, *78*
Herpes simplex infection potentiated by anaphylactic and histamine shock, *79*
Histaminase, action in vivo of, *52*
blood levels in pregnancy of, *32*
Histamine, conjugate, excretion in urine of, *41*
effect of amino acid on reaction of intestinal strip to, *79*
effect on blood pressure and pulse rate of, *56*
excretion, effect of diet on, *41*
inhibitory effect of imidazol on, *78*
in urine, *41*
release by hyperaemia and exercise, *56*
inhibition by pituitary-adrenal mechanism of, *53*
role in anaphylactic and allergic reactions, *41*
shock in rabbits, *79*
wheal, variable factors affecting size of, *79*
central nervous system lesion and, *63*
Histidine, therapeutic use of, *10*
Histoplasmin, skin sensitivity to, *75*
Horse serum, immunochemical properties of, *58*
periarteritis nodosa and allergy to, *62*
Human dander, patch testing with, *58*
skin reaction in atopic eczema to, *58*
Hydatid fluid, shock symptoms in dog produced by, *66*
Hypersensitivity to penicillin, *75*
role in periarteritis nodosa and rheumatic fever of, *62*
Hypnosis, influence on cutaneous reactions of, *27*

I

Imidazol, anti-histamine effect of, *78*
Infectious mononucleosis, mistaken diagnosis in allergic individuals of, *50*
relationship to allergy of, *48*
Inhalation therapy in asthma, *18*
Insecticide sensitivity, *4*
Inunction, skin testing by, *39*
Iodide sensitivity, periarteritis nodosa and, *62*

L

Lemon grass oil as cause of dermatitis, *7*
Light sensitization, an unusual case of, *20*
cured by cholecystectomy, *74*
Liver therapy, eosinophilia following, *68*
Loeffler's syndrome, *70*
amebic etiology of, *58*
associated with cutaneous helminthiasis, *78*
case report of, *33*
emetine treatment of, *58*
roentgen features of, *51*

M

Malaria, allergic manifestations in, *60*
Marrow eosinophiles, prognostic value in thrombocytopenic purpura of, *68*
Mercury, ammoniated, as cause of dermatitis, *23*

Migraine, ergotamine tartrate, and dihydroergotamine (D.H.E.-45) in treatment of, *76*
mechanism of, *28*
nicotinic acid in treatment of, *28*
Milk sensitivity causing headache, *10*
Mites as cause of dermatitis, *23*
Mold extracts, absence of histamine-like substances in, 34
immunologic studies with, *34*, *35*
irritative reactions obtained with, *34*
preparation of, *34*
relative therapeutic importance of, *35*
skin tests with, *34*
pellicles, skin tests with broth and washings from, *34*

N

Nasal allergy, diagnosis of, *61*
dust therapy in, *61*
congestion, privine hydrochloride as cause of, *74*
mucosa, pH of, *25*
secretions, activity of lysozyme in, *49*
pH of, *49*
temperature, relation to thermal skin stimuli in normals and allergics of. *74*
vasoconstrictors, phenylpropylmethylamine as, *25*
use and abuse of, *39*
Neuritis following use of hapamine, *50*
Neurological complications in serum and vaccine therapy, *40*
Nicotinic acid, treatment of migraine with, *28*
Nutrition in allergy, *13*

O

Occupational asthma, *57*
illness, respiratory, in cotton industries, *46*
Oral pollen therapy, evaluation of, *69*
Orthodontic patients, incidence of allergy among, *25*

P

Passive transfer tests, influence of hypnosis on, *27*
Patch testing with human dander, *58*
with morphine, *35*
Penicillin, allergy to, *11*
antigenic properties in guinea pig of, *30*
as cause of bullous dermatitis, *60*
of contact dermatitis, *21*, *24*, *72*
of urticaria, *72*
effect on respiratory cilia and epithelium of, *61*
induced reaction to, *75*
inhalation in treatment of asthma, *69*
in treatment of asthma, *45*, *57*
of bronchiectasis, *46*
photosensitizing properties of, *74*
reactions to, *75*
skin and ophthalmic sensitivity to, *80*
Percutaneous penetration, effects of various vehicles on, *47*
histologic studies of, *47*
Periarteritis nodosa, clinical diagnosis of, *15*
following thiourea, *76*
in rats, *64*
observations in 47 cases of, *15*
relationship of bacterial allergy with, *62*
of bronchial asthma with, *62*
of drug allergy with, *62*
of serum sickness with, *62*
role of hypersensitivity in, *62*
Peritonitis, benign paroxysmal type of, *77*
Perm-aseptic as cause of diaper rash, *61*
Pertussis, skin test in newborn and infants for, *43*
Phenylpropylmethylamine, clinical study of, *25*
Photosensitization by penicillin, *74*
Plasma, pooled human, as cause of urticaria, *7*
reactions following transfusion with, *65*
Platinum, asthma from complex salts of, *57*
Pneumothorax, spontaneous, in asthma, *2*
Poison ivy, chemical properties of, *60*
extracts, status of, *59*
inactivation by tyrosinase of, 60
smoke, antigenic properties of, *20*
Pollinosis in San Diego County, California, *45*
Potassium content of bronchial secretions, effect of urethane on, *17*
Potato as cause of dermatitis, *73*
Privine, circulatory effect of, *39*
hydrochloride as cause of nasal congestion, *74*
pharmacologic studies of, *38*
Procaine sensitivity, group specificity of, *70*
Proteins, importance of, in resistance to infection, *67*
Pruritus, cholinogenic, *5*
Psychosomatic aspects of allergy, *40*
Pulmonary calcification, nontuberculous type of, *75*
Pyrexin, role in fever of, *44*

R

Ragweed, antibodies in animal sensitization to, *52*
pollen inhalation as cause of urticaria, *56*
production, inhibition by chemical sprays of, *69*
reagins in cattle, *45*
sensitization, adjuvants as aid to, *52*
Reagins to ragweed pollen in cattle, *45*
Rh sensitivity, *30*
Rheumatic fever, cutaneous response to M fraction of hemolytic streptococci in, *76*
role of hypersensitivity in, *62*
skin tests with streptococcic proteins in, *15*
Rhinitis, allergic, military aspects of, *70*
Roentgen studies of heart in asthma, *18*
Rubber dermatitis, *37*

S

Sensitization of human skin to pollen, artificial induction of, *12*
Serum potassium response to epinephrine in normal and asthmatic subjects, *46*
therapy, neurological complications in, *40*
Sinus, frontal, production of negative pressure in, *26*
Sinusitis, causes of, pathologic changes in, 8
diagnosis of, *8*
treatment of, *9*
x-ray treatment of, *9*
Skin test for pertussis, *43*
influence of hypnosis on, *27*
with broth and washing from mold pellicles, *34*
with streptococcus fractions in rheumatic fever, *15*
Smallpox vaccine sensitivity, glomerulonephritis caused by, *11*
Sodium thiosulfate injections in eczematous dermatitis, *22*
Soybean food in eczema of children, *7*

Sulfathiazole inhalation in bronchial infections, *18*
in infectious bronchial asthma, *18*
sensitivity, clinical study of, *65*
Sulfonamide dermatitis, *61*
effect on nasopharyngeal flora of, *49*
hazards in external use of, *37*
hypersensitivity, pathologic studies in, *64*
inhalation of, *19*
sensitivity, asthma as manifestation of, *2*
desensitization in, *51*
periarteritis nodosa and, *62*
treatment, prophylactic value in children of, *49*
Sweat, palmar, in atopics and normals, *72*
Systemic reaction from bee sting, *65*

T

Tetanus toxoid, immunity after booster doses of, *55*
Tetryl as cause of dermatitis and vasomotor rhinitis, *72*
Thiouracil, agranulocytosis caused by, *29*
Thiourea as possible cause of periarteritis nodosa, *76*
Thrombocytopenic purpura, prognostic value of marrow eosinophiles in, *68*
Thyroid gland, relationship to allergic states of, *64*
Tobacco smoke, allergy to, *70*
Transient pulmonary edema, *70*
Trichinosis, flocculation test for, *28*
Trichophyton reaction, effect of central nervous system lesions on, *63*
Tropical eosinophilia, *63*
Tuberculin, cellular transfer of cutaneous hypersensitivity to, *78*
reaction, effect of central nervous system lesions on, *63*
Tuberculosis as cause of pulmonary calcification, *75*
effect of tuberculin sensitivity on distribution of tubercle bacilli in, *27*
role of cathepsin in, *55*
Typhus fever immunization, egg allergy in relation to, *63*

U

Ultraviolet light reaction, effect of central nervous system lesions on, *63*
sensitivity cure by cholecystectomy of, *74*
Urethane, effect of, in asthma, *17*
on potassium content of respiratory secretions, *17*
Urticaria caused by inhalants, *36*
cholinogenic, *5*
following human plasma transfusion, *65*
from heat, *5*
from penicillin, *11*, *72*
from pooled human plasma, *7*
in infectious mononucleosis, *48*
in malarial infection, *60*
inhalation of ragweed pollen as cause of, *36*
insulin shock in treatment of, *61*

V

Vaccine therapy, neurological complications in, *40*
value in allergic children of, *35*
Vasomotor rhinitis and endocrine imbalance, *49*
Vernal conjunctivitis, possible mechanism of, *38*
Vitamins, effect on acetylcholine synthesis of, *43*

W

Wearing apparel as cause of dermatitis, *73*
Weight loss in allergy, *13*

Y

Yellow fever immunization, egg allergy in, *63*
